## Examiner's Statement of Reasons for Allowance:

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under Ex Parte Quayle, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on November 21, 2006 has been entered.

The amendments to the specification are corrections to the sequence listing and corresponding text in the disclosure that do not add new matter, as explained in the remarks filed on November 21, 2006. The amendments to the claims further clarify the claimed subject matter. Prior to the amendment filed November 21, 2006, Figures 2A and 2B did not have sequence identifiers. The addition of SEQ ID NO: 205 and 206 to the sequence listing corrects this deficiency and is not new matter. The addition of SEQ ID NO: 205 and 206 to the claims further defines the framework regions of the claimed antibodies. All pending claims are free of the prior art of record.
